## PRESS RELEASE

A2Z is pleased to announce that the Company has secured orders worth. approx. Rs. 2,400 (Two Thousand Four Hundred) Crores for EPC work against APO (Advance Purchase Order) received by Sterlite Technologies Ltd. and ITI Ltd. for end to end deployment including Design, Engineering, Implementation and Maintenance of parts of Network for Spectrum (NFS) project – Optical Fibre Network in the state of J&K and Eastern & North-east part of India for Optical Fibre Network for Defence Services (“OFC Projects”).

The government of India had decided to get the Spectrum released which was held by Defense in the frequency range of 1,700 MHz to 2,000 MHz, owing to growing telecommunication needs and shortage of spectrum available for growth of cellular services. The order is for full rollout of OFC network to be owned and operated by the Defense services, Ministry of Defense (MoD). The said network comprises of a highly resilient exclusive OFC based nationwide Optical Backbone for defense sites and access networks at army sites.

None of the directors and/or major shareholders of the Company, or persons connected with them have any interest, direct or indirect, in the Project.

**Commenting on the Order, Mr. Amit Mittal, Managing Director of A2Z, said:**

“The orders secured by the Company indicate that our capabilities and strong execution track record make the Company, the contractor of choice in this vertical. Despite the difficult times during last couple of years, the Company has succeeded in achieving this large order. The project is of national importance. The Defense forces will own and operate the network after successful implementation of the project. We, with continuing support of our bankers, are confident to execute the projects within the stipulated timelines.”

### About A2Z Maintenance & Engineering Services Limited (A2Z)

A2Z Maintenance & Engineering Services Limited (A2Z) is an Engineering, Procurement and Construction (“EPC”) Company presently engaged in power transmission and distribution sector along with power generation by renewable energy sources of fuels like biomass, refused derived fuel (RDF), mustard stems, rice husk etc. in addition to erection of optical fiber cable network for telecom companies.

A2Z does not foresee any exceptional risks from the Project other than execution risks. The Project is expected to contribute positively towards the earnings and net assets of A2Z commencing from the financial year ending 31<sup>st</sup> March 2015. We shall be able to strengthen our Balance Sheet and are confident of steadily improve Operational performance in the coming quarters.
